

ARIA and HTML5 form controls

Labeling form controls

- `label` element (HTML 4.01)
- `title` attribute (HTML 4.01)
- `fieldset/legend` elements (HTML 4.01)
- `aria-labelledby` attribute (ARIA 1.0)
- `aria-label` attribute (ARIA 1.0)

Instructions

- `tabindex="0"` attribute to add instructions to tab order (convention)
- `aria-describedby` attribute (ARIA 1.0)

Identifying Required and Invalid Form Controls

- Image with ALT Text
- Text content (hidden or visible)
- `aria-required` attribute (ARIA 1.0)
- `aria-invalid` attribute (ARIA 1.0)
- `required` attribute (HTML 5)
- `alert` role for announcing errors
